

We learned:

- What Accounting is:
 - the process of identifying, **measuring**, and communicating economic information to permit informed judgements and decisions
- The Accounting Function:
 - Internal usage: **Management Accounting** (We will focus on **Cost Accounting** part)
 - External usage: **Stewardship Accounting** (We will focus on **Financial Accounting** part)
- Types of Businesses
 - Sole Proprietorship
 - Partnership
 - Corporation

We learned:

- Financial Position and the Accounting Equation

Financial Position

Economic resources that belong to a company and the claims (*equities*) against those resources at a point in time

Accounting Equation

$$\text{Assets} = \text{Liabilities} + \text{Owner's Equity}$$

- Business Transactions:
 - are economic events that affect the financial position of a business entity
- How to show the effects of these business transactions on **Accounting Equation**

Business Transactions

Defined as the economic events that affect the financial position of a business entity. To measure a business transaction, accountants must decide:

- 1 when the transaction occurred (**recognition issue**)
 - whenever the ownership passes to the firm
 - whenever revenue is earned
 - whenever a cost is incurred
- 2 what value to place on the transaction (**valuation issue**)
 - **original cost** (the exchange price) associated with transaction at the time of recognition.
 - The practice of recording transactions at cost is called **cost principle** and used due to its verifiability.
- 3 how the transaction should be categorized (**classification issue**)
 - assigning all transactions to appropriate categories and finally to **accounts**.

In the measurement of business transactions

- vast amount of data are gathered
- data should be recorded and stored appropriately to facilitate easy retrieval and easy usage
- preparing the accounting equation for each transaction is time consuming and can cause information losses
- Therefore, **account** is used as the basic storage unit for accounting data, to accumulate similar transactions

Accounts

- Accounting systems have separate accounts
 - for each Asset and for each Liability
 - for each Components of Owner's Equity (also Revenues and Expenses)

Each account is kept on a separate page and book that contains all these accounts is called **General Ledger** or simply **Ledger**. A unique number is assigned to each account for easy reference.

Assets Accounts

- Cash
- Notes Receivable
 - Written promissory note for a fixed date
- Accounts Receivable
 - Oral or implied promises
- **Prepaid Expenses**
 - Pay for goods and services in advance
 - Asset until used or expired
 - Supplies, Prepaid Insurance, Prepaid Rent, Prepaid Taxes
- Land
- Buildings
 - Subject to wear-tear (depreciation)
- Equipment

Liabilities Accounts

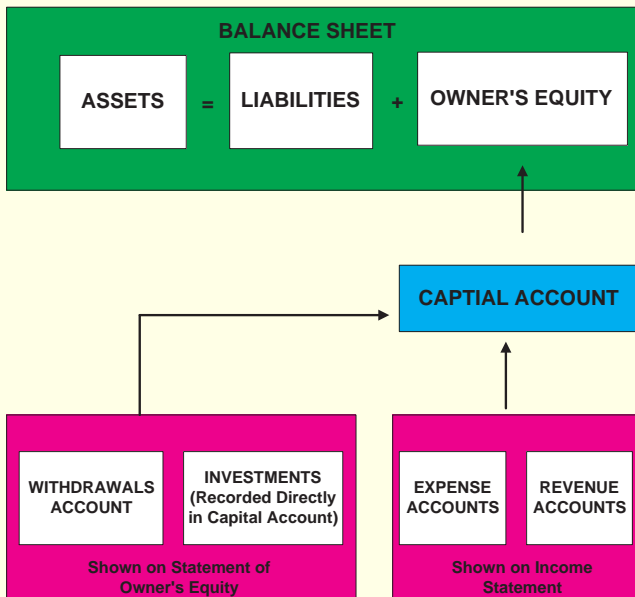

Another term is debt.

- Notes Payable
 - Opposite of Notes Receivable
- Accounts Payable
 - Opposite of Accounts Receivable
- Wages Payable
- Taxes Payable
- Rent Payable
- Interest Payable
- Accounts opposite of Prepaid Expenses (**customers pay in advance**)
 - Unearned Fees
 - Customer Deposits
 - Advances from Customers
 - Unearned Revenues

Owner's Equity Accounts

- Capital Account
 - investments by the owners are recorded here
 - not a revenue by law
- Withdrawals Account
 - withdrawals by the owners are recorded in this account
 - not an expense by law
- Revenue and Expense Accounts
 - **Temporary** accounts used to calculate net income
 - **closed out** at the end of the period with the net difference transferred to capital account
 - One account for each to facilitate easy understanding of revenue and expense sources

Let's see the relationships of Owner's Equity Accounts.

The Double-Entry System

- backbone of accounting evolved in Renaissance
- based on principle of duality
- every economic event has two aspects that balance each other
 - effort and reward
 - sacrifice and benefit
 - source and use
- each transaction must be recorded with at least one debit and one credit
- total dollar amount of debits and the total amount of credits equal each other
- therefore, whole system is always in balance

T Accounts

Very useful to understand how the double-entry system works. They are the **basic representations of the accounts** and have three parts:

- 1 Title
- 2 A left side which is called the **debit** side
- 3 A right side which is called the **credit** side.

- An entry made on the left side of the account is a debit
- An entry made on the right side of the account is a credit
- Debit and credit are simply accountant's word for left and right.

NO ANY OTHER MEANINGS!

To illustrate the usage of T accounts, let's consider the cash account of the Luxury Homes Realty. The transactions that involves:

- the receipt of cash are recorded by entering on left (**debit**)
- payment of cash are recorded by entering on right (**credit**)

Tabular Summary

| Cash |
|---------------|
| 50,000 |
| -35,000 |
| 1,500 |
| -200 |
| 1,000 |
| -1,000 |
| -400 |
| -600 |
| 15,300 |

Account Form

| Cash | |
|--------------------|---------------|
| (1) 50,000 | (2) 35,000 |
| (5) 1,500 | (4) 200 |
| (7) 1,000 | (8) 1,000 |
| | (9) 400 |
| | (10) 600 |
| | 37,200 |
| Bal. 15,300 | |

The difference in the debit and credit **footings** is called the **balance** or **account balance**. If the balance is a debit it is written on the left side of the T-account and if it is credit on the right side.

According to the rules of double-entry bookkeeping

For every transaction:

- 1 at least one account is debited and at least one account is credited
- 2 the total amount of debits must equal total of credits

Consider the Accounting Equation

$$\text{Assets} = \text{Liabilities} + \text{Owner's Equity}$$

- 1 if a debit increases assets, then a credit must be used to increase the liabilities or the owner's equity
- 2 if a credit decreases the assets, then a debit should decrease the liabilities or owner's equity

| Assets | | = | Liabilities | | + | Owner's Equity | |
|--------------|---------------|---|--------------|---------------|---|----------------|---------------|
| Debit for | Credit for | | Debit for | Credit for | | Debit for | Credit for |
| Increase | Decrease | | Decrease | Increase | | Decrease | Increase |

RULES:

- 1 Increases in assets are debited to asset accounts; decreases in assets are credited to the assets accounts.
- 2 Increases in liabilities and owner's equities are credited to liabilities and owner's equities accounts; decreases in liabilities and owner's equities are debited to the liabilities and owner's equities accounts.

| Assets | | = | Liabilities | | + | Owner's Equity | |
|--------------|---------------|---|--------------|---------------|---|----------------|---------------|
| Debit for | Credit for | | Debit for | Credit for | | Debit for | Credit for |
| Increase | Decrease | | Decrease | Increase | | Decrease | Increase |

Historical Background

- Accounts decide to enter increases in assets to the left side (**debit**) of accounts, since assets are on the left side of the accounting equation
- Accounts decide to enter increases in liabilities and owner's equity to the right side (**credit**) of accounts, since liabilities and owner's equity are on the right side of the accounting equation

The application of those rules to the owner's equity is a bit confusing since its components; revenues, expenses, withdrawals and investments have different effects.

- Revenues **increase** owner's equity
- Expenses **decrease** owner's equity
- Withdrawals **decrease** owner's equity
- Investment **increase** owner's equity

The following relationship is useful to visualize that relationship:

| Owner's Equity | | | |
|---|-----------------------|--|--|
| <b style="color: red;">Decreases (debits) Expenses | | <b style="color: red;">Increases (credits) Revenues | |
| <b style="color: red;">Increases (debit) | Decreases (credit) | Decreases (debit) | <b style="color: red;">Increases (credit) |
| Withdrawals | | Capital | |
| <b style="color: red;">Increases (debit) | Decreases (credit) | Decreases (debit) | <b style="color: red;">Increases (credit) |

OR SIMPLY

| | | | |
|--------------------|-----------------|--------------------|-----------------|
| Assets | | Liabilities | |
| Expenses | | Revenues | |
| Withdrawals | | Capital | |
| ----- | | ----- | |
| Debit | Credit | Debit | Credit |
| for | for | for | for |
| Increase | Decrease | Decrease | Increase |

January 1: John Miller invests \$10,000 to start his own advertising agency.

| | | | |
|-------|--------|----------------------|--------|
| Cash | | John Miller, Capital | |
| Jan.1 | 10,000 | Jan.1 | 10,000 |

Rules

Increase in assets are debited to the asset account, increase in owner's equity is credited to the owner's equity account.

January 2: John Miller rents an office, pays 2 months rent, \$800 in advance.

| Cash | | Prepaid Rent | |
|-------|--------|--------------|-----|
| Jan.1 | 10,000 | Jan.2 | 800 |
| | | Jan.2 | 800 |

Rules

Increase in assets are debited to the asset account, decrease in assets is credited to the asset accounts.

January 4: Purchase art equipment, \$4,200, with cash.

| Cash | | | | Art Equipment | |
|-------|--------|-------|-------|---------------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 | Jan.4 | 4,200 |
| | | Jan.4 | 4,200 | | |

Rules

Increase in assets are debited to the asset account, decrease in assets is credited to the asset accounts.

January 5: Purchases office equipment, \$3,000, pays \$1,500 in cash and agree to pay the rest of the payment \$1,500 next month.

| Cash | | | | Office Equipment | |
|-------|--------|-------|-------|------------------|-------------|
| Jan.1 | 10,000 | Jan.2 | 800 | Jan.5 | 3,000 |
| | | Jan.4 | 4,200 | | |
| | | Jan.5 | 1,500 | | |
| | | | | Account Payable | |
| | | | | | Jan.5 1,500 |

Rules

Increase in assets are debited to the asset account, decrease in assets is credited to the asset accounts, increase in liabilities are recorded as credits.

January 6: Purchases art supplies, \$1,800, office supplies, \$800 on credit from Taylor Company.

| | | | | | |
|---|----------------|--|----------------|--|----------------|
| Office Supplies | Art Supplies | | | | |
| Jan.6 800 | Jan.6 1,800 | | | | |
| <div style="border-bottom: 1px solid black; margin: 0 auto; width: 60%;"></div> <table style="margin: 0 auto; border-collapse: collapse;"> <tr> <td style="border-right: 1px solid black; padding: 5px;"></td> <td style="padding: 5px;">Jan.5 1,500</td> </tr> <tr> <td style="border-right: 1px solid black; padding: 5px;"></td> <td style="padding: 5px;">Jan.6 2,600</td> </tr> </table> | | | Jan.5 1,500 | | Jan.6 2,600 |
| | Jan.5 1,500 | | | | |
| | Jan.6 2,600 | | | | |

Rules

Increase in assets are debited to the asset accounts, increase in liabilities are recorded as credits.

January 8: Pays for a one-year life insurance policy, \$480, with coverage effective January 1.

| Cash | | | | | |
|-------|--------|-------|-------|-------------------|-----|
| Jan.1 | 10,000 | Jan.2 | 800 | | |
| | | Jan.4 | 4,200 | Prepaid Insurance | |
| | | Jan.5 | 1,500 | Jan.8 | 480 |
| | | Jan.8 | 480 | | |

Rules

Increase in assets are debited to the asset account, decrease in assets is credited to the asset accounts.

January 9: Pays Taylor Company \$1,000 of the amount owned.

Cash

| | | | |
|-------|--------|-------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 |
| | | Jan.4 | 4,200 |
| | | Jan.5 | 1,500 |
| | | Jan.8 | 480 |
| | | Jan.9 | 1,000 |

Account Payable

| | | | |
|-------|-------|-------|-------|
| Jan.9 | 1,000 | Jan.5 | 1,500 |
| | | Jan.6 | 2,600 |

Rules

Decrease in assets is credited to the asset accounts, decrease in liabilities is recorded as debits.

January 10: Performs a service by placing an advertisement for an automobile dealer and collects a fee, \$1,400.

| Cash | | | | | |
|--------|--------|-------|-------|-----------------|--|
| Jan.1 | 10,000 | Jan.2 | 800 | | |
| Jan.10 | 1,400 | Jan.4 | 4,200 | Adv. Fee Earned | |
| | | Jan.5 | 1,500 | Jan.10 | |
| | | Jan.8 | 480 | 1,400 | |
| | | Jan.9 | 1,000 | | |

Rules

Increase in assets is debited to the asset accounts, increase in owner's equity is recorded as credits.

January 12: Pays the two week wage of the secretary, \$600.

| Cash | | | |
|--------|--------|--------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 |
| Jan.10 | 1,400 | Jan.4 | 4,200 |
| | | Jan.5 | 1,500 |
| | | Jan.8 | 480 |
| | | Jan.9 | 1,000 |
| | | Jan.12 | 600 |

| Wages Expense |
|---------------|
| Jan.12 600 |

Rules

Decrease in assets is credited to the asset accounts, decrease in owner's equity is recorded as debits.

January 15: Accepts an advance fee, \$1000, for artwork to be done.

| Cash | | | |
|--------|--------|--------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 |
| Jan.10 | 1,400 | Jan.4 | 4,200 |
| Jan.15 | 1,000 | Jan.5 | 1,500 |
| | | Jan.8 | 480 |
| | | Jan.9 | 1,000 |
| | | Jan.12 | 600 |

| Unearned Art Fees | |
|-------------------|-------------|
| | Jan.15 1000 |

Rules

Increase in assets is debited to the asset accounts, increase in liabilities is recorded as credits.

January 19: Performs a service by placing a major advertisement for Wall Mart. The fee, \$2,800 is billed now but will be collected next month.

| | |
|---------------------|-----------------|
| Accounts Receivable | Adv. Fee Earned |
| Jan.19 2,800 | Jan.10 1,400 |
| | Jan.19 2,800 |

Rules

Increase in assets is debited to the asset accounts, increase in owner's equity is recorded as credits.

January 25: John Miller withdraws \$1,400 for his personal usage.

Cash

| | | | | |
|--------|--------|--------|-------|---------------------------------|
| Jan.1 | 10,000 | Jan.2 | 800 | |
| Jan.10 | 1,400 | Jan.4 | 4,200 | |
| Jan.15 | 1,000 | Jan.5 | 1,500 | |
| | | Jan.8 | 480 | |
| | | Jan.9 | 1,000 | |
| | | Jan.12 | 600 | |
| | | Jan.25 | 1,400 | |
| | | | | <u>John Miller, Withdrawals</u> |
| | | | | Jan.25 1,400 |

Rules

Decrease in assets is credited to the asset accounts, decrease in owner's equity is recorded as debits.

January 26: John Miller pays this secretary two more weeks' wages, \$600.

Cash

| | | | |
|--------|--------|--------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 |
| Jan.10 | 1,400 | Jan.4 | 4,200 |
| Jan.15 | 1,000 | Jan.5 | 1,500 |
| | | Jan.8 | 480 |
| | | Jan.9 | 1,000 |
| | | Jan.12 | 600 |
| | | Jan.25 | 1,400 |
| | | Jan.26 | 600 |

Wages Expense

| | |
|--------|-----|
| Jan.12 | 600 |
| Jan.26 | 600 |

Rules

Decrease in assets is credited to the asset accounts, decrease in owner's equity is recorded as debits.

January 29: John Miller receives and pay the utility bill, \$100.

| Cash | | | |
|--------|--------|--------|-------|
| Jan.1 | 10,000 | Jan.2 | 800 |
| Jan.10 | 1,400 | Jan.4 | 4,200 |
| Jan.15 | 1,000 | Jan.5 | 1,500 |
| | | Jan.8 | 480 |
| | | Jan.9 | 1,000 |
| | | Jan.12 | 600 |
| | | Jan.25 | 1,400 |
| | | Jan.26 | 600 |
| | | Jan.29 | 100 |

| Utility Expense | |
|-----------------|-----|
| Jan.29 | 100 |

Rules

Decrease in assets is credited to the asset accounts, decrease in owner's equity is recorded as debits.

January 30: John Miller receives but not pay the telephone bill, \$70.

| | | Account Payable | |
|--------------------------|--|-----------------|-------------|
| <u>Telephone Expense</u> | | Jan.9 1,000 | Jan.5 1,500 |
| Jan.30 70 | | | Jan.6 2,600 |
| | | | Jan.30 70 |

Rules

Increase in liabilities is credited, decrease in owner's equity is recorded as debits.

The usage of T accounts for recording the transactions is due to its simplicity and effectiveness. But;

- do not show the data of a transaction together (associated debits and credits are on separate T accounts)
- Not Chronological

Therefore, T accounts are only used for analyzing complex transactions in practice.

Formal process for recording the transactions:

- 1 Analyze the transactions from the source documents
- 2 Enter the transactions into the **Journal**
- 3 Transfer data from journal to the **Ledger** by debiting and crediting the particular accounts involved (called **posting**)

The General Journal

- All transactions are recorded to the **Journal** chronologically
 - identification of the individual transactions easy
 - debits and credits related with a transaction is entered same place
- A separate journal entry is used for each transaction
- Entries in the general journal include:
 - the date
 - year and month not repeated unless a new month or page
 - names of accounts debited and credited
 - first the debited accounts, next to left margin
 - after them the credited accounts, indented from left margin
 - amount of debits and credits made to the same line as the accounts
 - an explanation of the transaction
 - post reference is used to enter the ledger account number after posting from journal takes place for
 - convenient cross reference
 - indicating the transaction is already posted
 - a blank line is left after each journal entry

Let's see how two transactions for the John Miller Advertising Company would look like:

| General Journal | | | | | Page 1 |
|-----------------|---|--|-----------|--------------|--------|
| Date | | Description | Post Ref. | Debit | Credit |
| 2007 Jan. | 6 | Art Supplies Office Supplies Accounts Payable Purchase of art and office supplies on credit | | 1,800 800 | 2,600 |
| | 8 | Prepaid Insurance Cash Paid one year life insurance premium | | 480 | 480 |

The T account is a simple and direct way to update the accounts, but in practice a more complicated form of account is needed.

The General Ledger

- The name and number of the account appear at the top
- Date is entered similar to the journal
- The Post. Ref. section indicates the page of the journal where the original entry for the transaction recorded
- The balance is computed and entered after each entry
- The balance is always available (not in T accounts)

The accounts payable account in the ledger at the end of the month is given as:

| General Ledger | | | | | | |
|-------------------------|-------------|------------------|--------------|---------------|-----------------------|---------------|
| <i>Accounts Payable</i> | | | | | Account No:212 | |
| Date | Item | Post Ref. | Debit | Credit | Balance | |
| | | | | | Debit | Credit |
| 2007 Jan. | 5 | J1 | | 1,500 | | 1,500 |
| | 6 | J1 | | 2,600 | | 4,100 |
| | 9 | J1 | 1,000 | | | 3,100 |
| | 30 | J2 | | 70 | | 3,170 |

Posting

- Entries in the journal are transferred into the ledger regularly
- Debit (credit) amount in the journal is transferred into the debit (credit) column of the appropriate account in the ledger
- After the entry is done, account number is entered to the Post.Ref. column of the journal where the account is credited or debited.

| General Journal | | | | | Page 2 |
|----------------------------|-----------|---|-------------------|--------------|---------------|
| Date | | Description | Post. Ref. | Debit | Credit |
| 2007 Jan. | 30 | <i>Telephone Expense</i> <i>Accounts Payable</i> <i>Received Bill for</i> <i>telephone expense</i> | | 70 | 70 |
| | | | | | |

In the ledger, locate the debit and credit accounts named in the journal

| | | | | | | Debit | Credit |
| 2007 Jan. | 30 | | J2 | 70 | | 70 | |

For every amount debited in the ledger, an equal amount must be credited. Which means the total of debits must be equal to the total of the credits. This is tested periodically by preparing a trial balance.

The steps in preparing a trial balance:

- 1 List each account that has a balance; debit balances entered into the left column, credit balances into the right.
- 2 Add each column.
- 3 Left and right columns must equal each other.

CAUTION!

- Trial balance proves whether or not the ledger is in balance
- Does not prove that the transactions were analyzed and recorded in proper accounts

Let's see the trial balance for the John Miller Advertising Company at the end of January.

*John Miller Advertising Company
Trial Balance
